

PAOLO RAMPINI

AUTOMODELLI ESCI / CB CAR

La E.S.C.I. (Ente Scambi Coloniali Italiani) fu fondata a Cernusco sul Naviglio in via Torino nel 1966 da Daniel Agiman . Si trattava di una ditta specializzata nella vendita di giocattoli vari . Nel 1970 la Esci diventa Esci Modellistica e nel 1972 arrivano i primi kits e le decalcomanie .

La Esci è molto famosa per la produzione di kits ma in questa pubblicazione verranno trattati solamente i modelli in metallo pressofuso .

Nel 1983 la Esci Modellistica propone sul mercato tanti piccoli modelli con personaggi di fantasia . La produzione continua per qualche anno .

Tra il 1985 ed il 1987 la Esci Modellistica mette in commercio la serie CB CAR composta da automodelli in metallo pressofuso in scala 1/24 . Trattasi di pezzi di ottima qualità.

Nel 1987 a causa di problemi economici la Esci viene ceduta alla ditta Ertl .

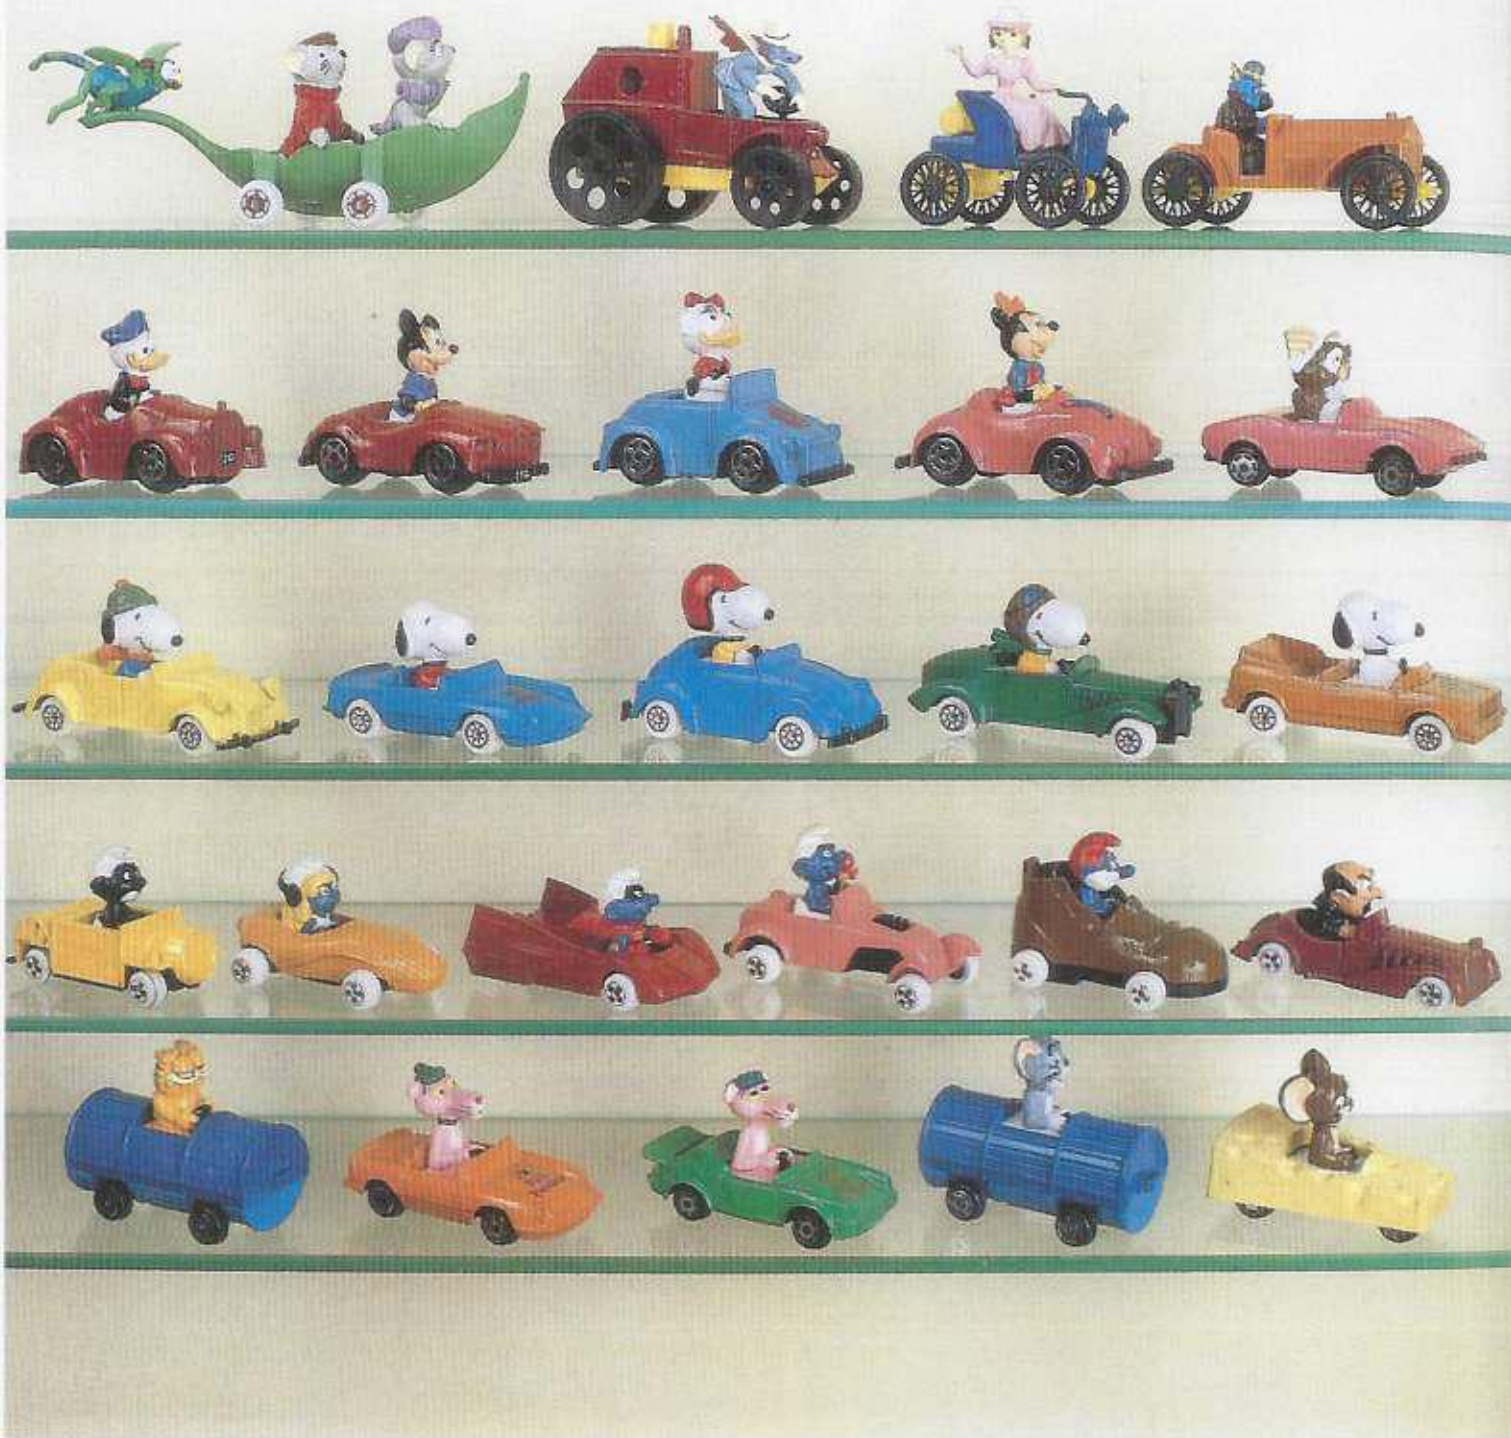

Nel 1993 la ERTL/ESCI fu liquidata .

Sicuramente la Esci rimarrà famosa per i kits di ottimo livello ma in queste pagine vengono trattati solamente i pezzi in metallo pressofuso .

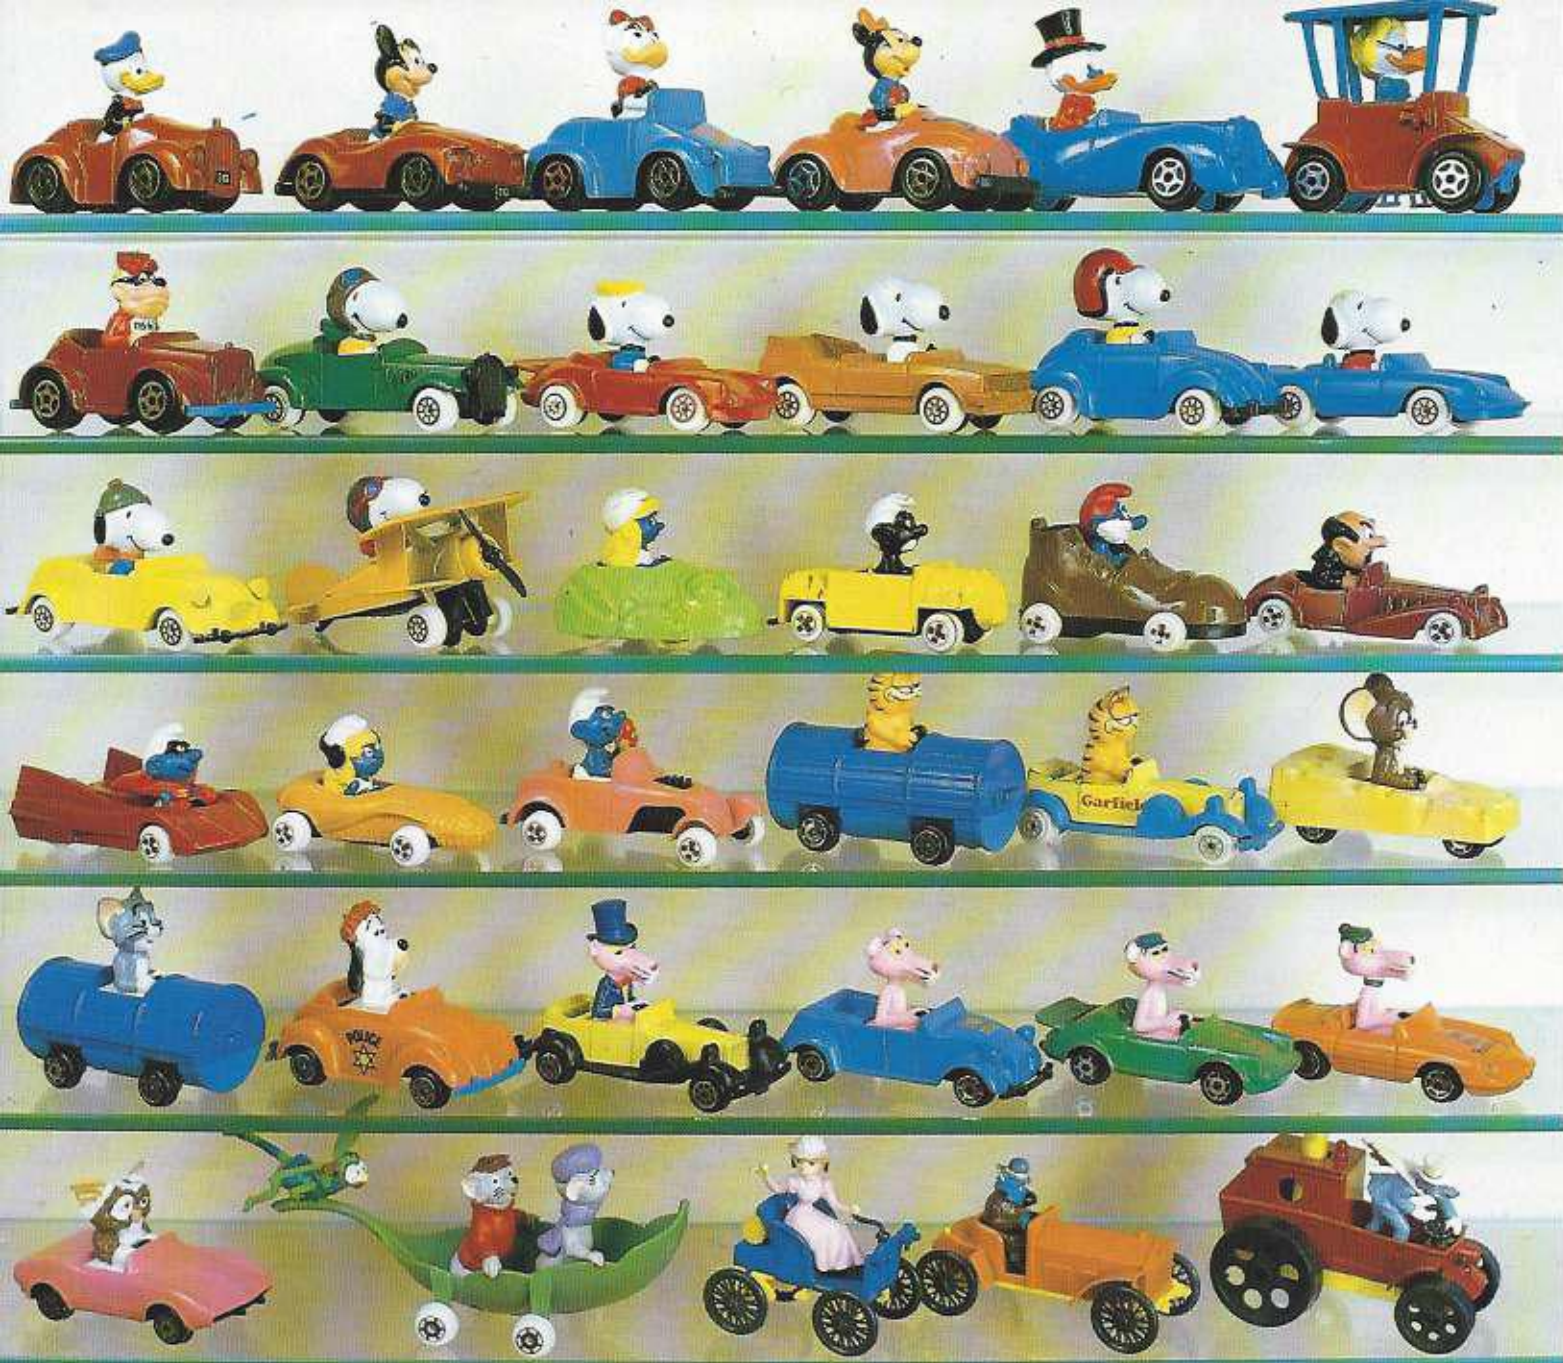

Qui di seguito potete trovare l'elenco completo dei modelli ESCI . Questi pezzi furono venduti con successo in Italia ma furono esportati anche in altri stati ed in particolare in Inghilterra e Germania .

E.S.C.I. (PRODUZIONE INDUSTRIALE: AUTOMODELLI)
